

AKHIL G KRISHNAN

PYTHON DJANGO FULL STACK DEVELOPER

Alappuzha | akhilgkrishnan102@gmail.com | +91 77366 68179 | www.linkedin.com/in/akhilgk-/

SUMMARY

Full Stack Developer specializing in Django-based web applications with proven experience in developing and deploying real-world projects. Strong in backend logic, database design, and responsive UI development. Focused on building efficient, secure, and scalable solutions that solve practical business problems.

WORK EXPERIENCE

Full Stack Developer
Hostlane Technolab, Alappuzha

Mar 2025 - Mar 2026

- Developed 5+ Django applications with optimized database architecture improving query performance by 30%. Automated deployment workflows reducing release time significantly
- Worked with clients from the UAE and UK, developing and maintaining business applications tailored to regional market requirements.**
- Developed responsive websites using HTML, CSS, JavaScript, Django, and Python.
- Worked with clients to gather requirements and deliver customized solutions
- Managed deployment, hosting, and performance optimization of web applications

Python Django-React Full Stack Developer Intern
Luminar Technolab, Ernakulam

Jun 2024 - Jan 2025

- Developed and maintained full-stack web applications using Python, Django and HTML, CSS &JS
- Built responsive and user-friendly interfaces using HTML, CSS, JavaScript, and Bootstrap
- Designed and integrated RESTful APIs for seamless frontend-backend communication
- Implemented CRUD operations and managed data using MySQL/SQLite databases

Python Intern
LCC Computer Education , Ernakulam

Dec 2023 - Mar 2024

- Gained hands-on experience in Python programming and core software development concepts
- Practiced writing clean, efficient, and reusable code

EDUCATION

Bachelor of Science in Computer Science
Kerala University

Oct 2021 - May 2024

- GPA: 6.5 ,BSc Computer Science graduate from the University of Kerala with a strong foundation in programming, problem-solving, and technology applications.

SKILLS

Front-end Frameworks	HTML5, CSS3, JavaScript, Bootstrap,Tailwind & Wordpress CMS
Databases	Django, Django Rest Framework (DRF)
Backend	MySQL, SQLite & ORM (Django ORM)
Tools & DevOps	Python, PHP
APIs & Integrations	Git, GitHub, Docker, AWS, DigitalOcean, Vercel, Cloudflared Tunnel, SEO
	REST API, Razorpay, Twilio

CERTIFICATES

Python - Web Development Expert

Jan 2025

- Completed "Python - Web Development Expert" certification by National Council for Technology and Training, gaining hands-on experience in Django, web application development, and full-stack project implementation.

Problem Solving (Basic) By HackerRank

Aug 2024

- Completed "Problem Solving (Basic)" certification by HackerRank, enhancing skills in algorithmic problem solving and coding efficiency.

Python Certification by HackerRank

May 2024

- Earned Python Certification from HackerRank, demonstrating proficiency in Python programming and problem-solving skills

Python101 for Data Science by IBM

Feb 2024

- Completed "Python101 for Data Science" by IBM, gaining foundational skills in Python programming and its applications in data analysis and visualization

PROJECTS

Zyrox

April 2026

ERP & Business Operations Management System

- Built a modular ERP system using Django to manage Sales, Purchase, Delivery, and Accounts in a centralized platform.
- Implemented role-based authentication and optimized database design to ensure secure and efficient operations.
- Automated core workflows to reduce manual errors and improve overall business efficiency.

ZyTech Pro

March 2026

Solar Business Management System

- Developed a web-based system to manage solar business operations from enquiry to maintenance
- Built modules for Admin, Employee, Customer, Quotation, Complaint, Payment & AMC
- Implemented role-based authentication (Admin & Employee)
- Created automated quotation system with subsidy calculation
- Developed complaint tracking with ticket assignment and resolution flow
- Designed payment workflow (Unpaid → Paid → Confirmed)
- Integrated Excel import, Google Sheets, and OCR for data handling
- Generated PDF invoices, quotations, and reports

Tech: Python, Django, HTML, CSS, Bootstrap, JavaScript, SQLite, Tesseract OCR, Google Sheets API

E-Commerce Web Application

Jan 2026

Online Shopping Platform

- Developed a full-stack e-commerce application with product listing, cart, and secure checkout
- Implemented user authentication, order management, and payment integration
- Built using Django, and MySQL with responsive UI
- Optimized performance and ensured smooth user experience

Tech: Python, Django, SQLite, HTML, CSS, Bootstrap, JavaScript, Razorpay
